

**To whom it may concern**

## **DECLARATION**

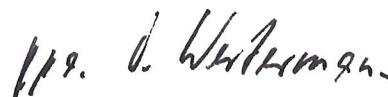

- 1.) In Germany animal experiments for development of all kind of new cosmetic products are forbidden according to §7,5 of the federal law for protection of animal.
- 2.) In our opinion animal experiments with cosmetic products are not necessary and JEAN D'ARCEL feels obliged to this statement.
- 3.) The toxicological safety check of raw materials and actives by the manufacturers of these compounds is regulated by german and european legislation.
- 4.) For the safety assessment of each cosmetic product it is an absolute necessity to have knowledge about the toxicological data of the raw materials used in the formulation.
- 5.) Application tests and tests to prove the safety and efficiency of our products are prepared on randomized groups of volunteers after we are sure that there is no risk for these individuals to get any health defect.
- 6.) JEAN D'ARCEL supports the development and application of validated in vitro test methods for cosmetics.

JEAN D'ARCEL Cosmétique
